

**Ted Aadland**, CEO of Aadland Evans Constructors, Inc. has more than 40 years of heavy highway experience. Supervising more than 200 multifaceted transportation improvement projects, he has been involved in bridges serving highways, freight rail, transit and light rail.

In 1980, Mr. Aadland co-founded F.E. Ward, Inc. Under his direction, F.E. Ward became recognized as one of the premier contractors in the Northwest, known for its ability to provide unique solutions for difficult projects. Ted recognized the importance of partnering with owners and delivered successful projects through innovation and collaboration.

Mr. Aadland is a highly respected leader of the nationwide heavy highway industry. Currently, he serves as a Senior Vice President of the Associated General Contractors of America (AGC). Next year, he will be serving as the President of AGC.

Mr. Aadland is also deeply involved within the community of contractors. His dedication to the industry is reflected in his continuous participation within the Associated General Contractors, both locally and nationally.

Locally, Ted has served as the president of the Oregon-Columbia Chapter of the AGC as well as sitting on various committees including serving as co-chair for the committee that developed the formal constructability review for the Oregon Department of Transportation. Nationally, Ted co-chaired the National Partnership of Highway Quality. Ted has also served as chairman of the Highway and Transportation Division as well as seven years on the Executive Committee of the AGC of America.
